

mf MAGIC
FLAVORS
Goes Green

Ecuador

I. Company Insight

What is Magic Flavors?

“Go Green, Go Natural, Go Beyond”

- We create high-quality natural flavors and green extracts derived from the rich biodiversity of the equatorial region.
- Our unique geographical location allows us to source exclusive plants from the Amazonian and its surroundings, which are then processed with care to retain their natural components, essence and freshness.

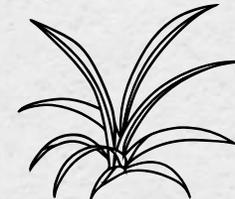

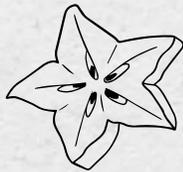

2. Certifications

We have a state-of-the-art manufacturing facility equipped with the latest technology, and our team of experts is dedicated to ensuring the highest standards of quality and safety. Our products comply with international regulations, and we are certified by FSCC 22000 and Kosher.

Magic Flavors, an Anglo-Ecuadorian company

3. Product Overview

Magic Flavors isn't just products; it's a mindful shift towards creating truly immersive sensory experiences.

It's the answer for a new generation of consumers and brands who want real, traceable, sustainable ingredients – without compromising quality or sensory richness.

4. Product Categories

4.1 Natural Flavors

Inspired by the richness of flavors of our biodiversity.
Tailored made natural flavours for a variety of industries
(food, feed and cosmetics).

4.2 Natural Extracts

High-quality and standardized botanical extracts rich in antioxidants in a wide variety of natural and functional solvents (Natural Deep Eutectic Solvents - NADES).

The use of the Best Available Technology guarantees a high component carryover within low energy consumption ranges for food, feed and cosmetic industry

4.3 Water-soluble Essentials Oils

Inspired by the richness of flavors of our biodiversity.
Tailored made natural flavors for a variety of industries
(food, feed and cosmetics).

5. Corporate Social Responsibility

1- Governance and Transparency:

We seek to promote ethics in our management through policies that define the conduct of our executives, employees, and partners.

2- Commitment to Human Well-being:

The company reaffirms its commitment to the comprehensive well-being of its employees and their families. We promote fair trade with our providers.

3- Environment:

Aside from carefully choosing the providers for botanical extracts, we are committed to adopting best practices that support efficient waste management, the control of harmful emissions, and energy savings. Our goal in the coming years is to become a company with zero negative ecological impact.

4- Sustainable Production :

We develop products with significant added value within a circular economy model, as we acquire residues from agricultural practices that are transformed into high-quality standardized extracts rich in bioactives.

6. Additional Information

- More than two decades of experience
- Certified flavorists
- Over 6000 formulas created
- Equatorial high-quality and standardized natural extracts with functional solvents
- We export worldwide

7. Why Magic Flavors ?

1- Truly authentic origins

Equatorial ingredients bursting with sensory appeal and interesting active compounds.

2. Cutting-edge science

Advanced technology and meticulous processes for food, feed and cosmetics.

3. Complete traceability

Certified ingredients with a known history, produced using clean processes.

4- Environmental commitment

We source raw materials within a circular economy mode, and we work with communities who practice regenerative agriculture in the Amazon, from conservation and sustainable areas in the coast of Ecuador and from farmers in the Andes who grow sustainable crops. Our goal is zero environmental impact.

5. Connecting emotionally with mindful brands

Designed for brands that value authenticity and stand out from the crowd.
